

## STRATOSPHERE WAS REACHED

BEAUMONT ATTORNEY  
CONTRADICTS STORY  
OF FORMER WITNESSINVESTIGATION INTO ALLEGED  
SALE OF JOBS RESUMED  
IN AUSTIN MONDAY

AUSTIN, Nov. 20.—(P)—C. W. Howth, Beaumont attorney, and a leader in the campaign of Miriam A. Ferguson for governor, flatly denied before a house investigating committee today that he had "even suggested" the barter or sale of boxing and wrestling permits to obtain funds to defray campaign expenses.

The committee today resumed its investigation into activities of governmental agencies, paying particular attention to the purported sale of jobs.

Testimony that Howth had said it cost \$200,000 to elect Mrs. Ferguson and it was necessary to get it back some way was given to the committee several days ago by Art Mondt, Beaumont attorney and wrestling promoter.

Mondt testified the statement was made by Howth when he went to see Howth about a recommendation for a wrestling permit.

Mondt declined to recommend Mondt because I had already recommended L. C. Wilson and the American Legion, Howth testified.

"Later Mondt's wife came to see me and I told her the same thing and then Mondt came again and I told him I would not recommend him because I thought two promoters in Beaumont were sufficient."

"Mondt offered me money to get him a license. He didn't offer any specific amount. He just asked how much I would charge to recommend him."

"The statement that I told him it cost \$200,000 to elect Mrs. Ferguson is not true. I made such a statement of that sort only because there was nothing in our conversation that would leave the impression or call for a statement like that. Mondt was trying to pay me, I was not trying to get any money out of him. Mondt never paid me and I refused to accept."

Howth testified that he suggested that Mondt and Wilson agree.

SOVIET AMBASSADOR  
TO UNITED STATES  
MOST VERSATILETROVANSKY IS EXPERT  
ECONOMIST AND AUTHORITY  
ON FAR EASTERN AFFAIRS

MOSCOW, Nov. 20.—(P)—The qualities of an expert economist and an authority on Far Eastern affairs are combined in Alexander Antonovitch Trovansky who will be the first Soviet ambassador to Washington.

A former artillery officer in the czar's army, he turned revolutionary in early youth, he was born 51 years ago in Voronezh and graduated from the artillery school at St. Petersburg (Leningrad) after attending the military preparatory school in his own city.

He went to the front in the Russo-Japanese war where he served with distinction. Later he was compelled to flee Russia because of his revolutionary activities and lived in France and Switzerland for several years.

Returning to Russia in 1918, he took up arms again in the czar's army.

MANY THOUSANDS OF MEN AT  
WORK TODAY UNDER NEW CIVIL  
WORKS PLAN OF GOVERNMENT

WASHINGTON, Nov. 20.—(P)—Many thousands of men were said by public officials today to be at work under the new civil works plan of transferring the needy from relief to full-time, full-paid jobs.

Reports of the transfers came from the new civil works administration which, however, did not have sufficient figures to estimate the total of new jobs. Plans were being made for other relief steps in the announced effort to get 4,000,000 back at work within the next month.

A number of prominent women were invited to a White House conference at noon today with Mrs. Franklin D. Roosevelt to consider the needs of unemployed women.

At the same time, representatives of the public works administration were continuing discussions with railroad officials of another new plan under which the carriers would obtain public works money if they carried lumber.

## BEFORE SLAYING-KIDNAP TRAGEDY

Made shortly before he was kidnaped, this picture shows Brooke Hart with his family in the grounds of their home at San Jose, Cal. Left to right, Alex Hart, wealthy merchant father, Mrs. Hart, Miss Aleesa Hart and Brooke Hart. Seated in front, a younger brother, Alex, Jr. Two suspects arrested in the kidnaping confessed young Hart was beaten and drowned in San Francisco Bay before demands for \$40,000 ransom were made on his family.

Two Killed and  
Another Injured  
In Auto Crash

TURKEY, Nov. 20.—(P)—Two persons were killed and another was critically injured in a head-on automobile collision two miles west of Turkey.

The dead: M. E. THRASHER, 70, pioneer Hall county gin operator.

FLAZIAS MCCAY, 18, Turkey high school student.

The injured: Dale Garner, 16, Turkey high school student, taken to a Dallas hospital for treatment.

The crash occurred last night. Thrasher, traveling alone, was going west from Turkey when his car was in a collision with one driven by McCay. Garner was riding with McCay.

Thrasher lived at Gasoline, a town a few miles west of Turkey.

Truck-Auto Collision Fatal.

FORT WORTH, Nov. 20.—(P)—Eugene Jones, 24, of Breckenridge and Clarence Raymond Lipsey, 38, of Roanoke, were killed early Sunday in an automobile-truck collision a mile east of Roanoke.

Witnesses said the collision occurred when Lipsey's car crashed into a stalled automobile and swerved into the road directly in the path of Jones' heavily loaded truck.

Funeral services for Lipsey will be held this afternoon at Roanoke while arrangements are pending for Jones' funeral.

Pardon Granted.

AUSTIN, Nov. 20.—(P)—Governor Miriam A. Ferguson today authorized three full pardons and six conditional pardons for Texas convicts.

School House Burns.

NACOGDOCHES, Nov. 20.—(P)—The Oak Ridge school house seven miles east of Nacogdoches was burned to the ground last night. Origin of the fire was not determined.

HAT IS FOUND IN  
MUFLATS SUNDAY  
AT SAN FRANCISCO

COUPON BOOKS ALSO FOUND  
BUT NAME IS NOT IDENTIFIED; MEN IN JAIL

SAN FRANCISCO, Nov. 20.—(P)—Except for a hat, identified as Brooke L. Hart's, authorities today had found no important clue in their search for the body of the San Jose kidnaping victim.

Shortly after the hat was picked up by searchers in the mudflats of San Francisco Bay last night, four oil company coupon books were discovered in the mud nearby.

The cover of one of the books bore a signature but it had been smeared by the water into illegibility.

Authorities said they believed the books may have been dropped by Hart or by one of the two men accused of kidnaping him and throwing him into the bay from the San Mateo bridge.

John M. Holmes and Thomas H. Thurmond, who police say confessed to abducting the 22-year-old store executive and slaying him in a \$40,000 ransom plot, remained in the San Francisco prison.

Preparations for their prosecution in San Jose under a state law setting death or life imprisonment as the penalty for kidnaping if the victim is injured, were announced by authorities there.

Both Holmes and Thurmond were visited by members of their families, accompanied by attorneys. The attorneys declined to disclose what defense plans were being made.

Recesses Court: Gives Blood.

ATOKA, Okla., Nov. 20.—(P)—District Judge P. L. Gassaway recessed term of court here today so he could give blood for transfusion to a sister, ill in a Sherman, Texas, hospital.

Denison Store Robbed.

DENISON, Nov. 20.—(P)—The J. J. Newberry company store here was robbed of \$200 Saturday night after the knob had been knocked from the safe. The loss was discovered today.

Work For Quarter  
Million Men Goal  
Next Thirty Days

WASHINGTON, Nov. 20.—(P)—Work for 250,000 women in the next 30 days was the goal set today before the conference on emergency needs of women by Harry L. Hopkins, relief administrator.

Introduced by Mrs. Roosevelt to the conference of women leaders which met in the east room of the White House, he estimated between 300,000 and 400,000 women are in need of work projects, such as those that will assimilate the male unemployed under the civil works administration.

Hopkins explained that the \$400,000,000 available to the civil works administration could be used only on projects that are legal under the public works act.

As illustrations of some such projects available to women he mentioned the U. S. employment service.

OIL PRICE FIXING  
HEARING POSTPONED  
BY ADMINISTRATOR

SCHEDULED TO GO INTO  
EFFECT DEC. 1; NOW SET  
FOR JANUARY 1

WASHINGTON, Nov. 20.—(P)—Secretary Ickes today postponed the price fixing for oil which had been scheduled to take effect December 1.

As it now stands, the order is for the price fixing schedules to go into force Jan. 1, but it is subject to further extension then if the situation is considered to warrant such a decision.

At the same time today, the administrator of the oil code postponed for 15 days hearings on the price schedule, which were to open today. The postponement was announced at what was scheduled to be the first hearing.

The new delay was officially said to come as a result of the secretary's desire to allow conflicting factions to get closer together, and to analyze further the reductions of production that have been ordered by the secretary.

Nathan R. Margold, chairman of the Petroleum administrative board that acts in an advisory capacity for Ickes, read a statement soon after the meeting gathered this afternoon, as follows:

"Just prior to the time set for the initiation of the hearings, it was represented to me that certain interests within the industry opposed to price control had suggested to the planning and co-ordination committee (the leading ex-

AMBASSADOR WELLES  
RETURNED TO CUBA  
AFTER CONFERENCE

PRESIDENT MEETS ENVOY AT  
WARM SPRINGS SUNDAY IN  
LENGTHY TALK

By FRANCIS M. STEPHENSON.  
(Associated Press Staff Writer.)  
WASHINGTON, Nov. 20.—(P)—President Roosevelt is sending Ambassador Sumner Welles back to Havana to carry on the United States' policy calling for the establishment of definite stability in the troubled island.

A brief announcement by the president last night after a five-hour talk with Welles that the ambassador would return to his post was accepted here as meaning there would be no immediate change in the American attitude of non-recognition of the Grau San Martin government and of non-intervention in the island.

In other words, Mr. Roosevelt is waiting to see what the San Martin group has to say about peace and stability. The views of Ambassador Welles in this regard were kept confidential.

After devoting his first day at Warm Springs to the Cuban situation, Mr. Roosevelt today relaxed his schedule today to enter into the relaxation he intends to have here.

(Continued on Page Two)

NEW YORK PHYSICIANS ACCEPT  
RESPONSIBILITY FOR MAJORITY  
DEATHS MOTHERS CHILDBIRTH

NEW YORK, Nov. 20.—(P)—The New York Academy of Medicine in an exhaustive report made public today, held the medical profession itself responsible for 61.1 per cent of avoidable deaths of mothers during childbirth in New York during the years 1929-31-32.

The report is based upon a study of "all puerperal deaths" in New York City during the three-year period—a total of 2,041. In arriving at its conclusions the committee of doctors who made the study investigated the circumstances of 341,870 births.

Of the 2,041 total of maternal deaths, the committee estimated that 1,343, or 65.8 per cent, could have been prevented "if the care of the woman had been proper in all respects."

Blame for the preventable deaths was apportioned by the committee as follows:

Midwives 2.2 per cent.  
Patients 36.7 per cent.  
Medical group 61.1 per cent.

"Sixty per cent of all the deaths," which could have been avoided, have been brought about by some incapacity in the attendant: lack of judgment, lack of skill, or careless inattention to the demands of the case. Some of these situations have arisen out of the fact that inexperienced have been given too wide a field of independent activity. Most are plainly the results of incompetence."

The report, criticizing over-use of anesthesia and instrumentalization in childbirth, notes that not only for both mother and baby.

The hazards of child birth in New York City are greater than they need be. Responsibility for reducing them rests with the medical profession."

The committee, which made its survey under a grant from the commonwealth fund, made numerous concrete recommendations to the medical profession. It said there is necessity for change in certain of the methods now employed; that hospitals must have qualified obstetricians as directors of their staffs; and that "the medical profession is obligated to inform the lay public that operative delivery is undertaken merely to alleviate pain or shorten labor involves increased risk."

BANKERS TELL OF  
DRAFTS IN SESSION  
NEW ORLEANS PROBE

ACCOUNT OF OVERTON SUPPORTER IS DESCRIBED AT  
MONDAY MEETING

NEW ORLEANS, Nov. 20.—(P)—Bankers testifying in the senate investigation of the election of Senator John H. Overton, (D., La.) ally of Senator Huey P. Long, said today that approximately \$10,000 in drafts were drawn on Seymour Weiss, treasurer of the Long political organization, for the 30 days prior to the Overton primary.

Herman Lind, assistant cashier of the American Bank and Trust company, testified that a liability account of Seymour Weiss, amounting to \$22,215 and of several years standing, was paid on December 7, 1932. He said the account was secured by stocks and guaranteed by two endorsers, Mike Moss and Irving Moss. Lind said the record indicated the amount was paid off in cash "but it was possible that it was paid by check."

This testimony was introduced over the objection of Senator Overton.

The six bankers who testified as to the numerous drafts drawn on Weiss and others in the period from Aug. 12 to Sept. 12, 1932 did not know, with two exceptions, who endorsed the drafts.

Charles W. Hogan, an officer for the Interstate Bank and Trust company, said that one draft on Weiss for \$800 on September 7

FAR EASTERN AND  
ECONOMIC PROBLEMS  
VITAL TO SOVIETS

LITVINOFF RESUMES WORK  
IN CONFERENCE THIS WEEK  
ON SEVERAL SUBJECTS

BY WILLIAM L. HEALE.  
(Associated Press Staff Writer.)  
WASHINGTON, Nov. 20.—(P)—Far Eastern and economic problems were thrust forward today as issues of major Soviet concern in the new Russian-American accord as Maxim Litvinoff entered new conferences on debts and claims.

Moscow's appointment and state department approval of Alexander Antonovitch Trovansky as the first Soviet ambassador immediately stressed two factors:

Trovansky is fully conversant with the Japanese situation in Manchuria, having completed a five-year ambassadorship to Tokyo only last January.

He is trained in Russia's commercial needs through service as president of the board of directors of the state trading corporation and a member of the collegium of the people's commissariat for foreign trade.

Litvinoff returned today to work remaining before his departure. Debts, claims and counter-claims were scheduled for discussion at the state department, but further

(Continued on Page Two)

## REPORTED SLAIN BY KIDNAPERS

Brooke Hart, 22, youthful son of a wealthy San Jose, Cal., family, who, according to the sworn confession obtained by the Santa Clara county sheriff's office from Thomas Thurmond, was brutally beaten to death on the same night that he was kidnaped and his body then tossed over the San Mateo county bridge into the waters of San Francisco Bay. The amazing confession related that Thurmond and J. M. Holmes, implicated in the crime according to the sworn confession, then proceeded to negotiate with Alex J. Hart, distraught millionaire father of the boy, for a "ransom" of \$40,000. Authorities are dragging the bay for the body. Holmes later corroborated Thurmond's confession.

DISTRICT MEETING  
OF CLEANERS HELD  
SUNDAY AFTERNOON

DETAILS OF NEW CODE DISCUSSED AND OFFICERS  
ARE NAMED

Representatives of eight Central Texas counties, comprising the Corsicana district of the State Cleaners and Dyers Association, met in Corsicana Sunday afternoon to perfect the organization required by the new national recovery act code which went into effect Monday, November 20. Approximately fifty business men from Ellis, Navarro, Henderson, Anderson, Houston, Leon, Freestone and Limestone counties attended the session at the Corsicana Chamber of Commerce.

Elbert Neely of Corsicana presided as temporary chairman of the meeting and opened the business of the afternoon with the election of the governing committee for this district, comprising one man from each county, whose duty it will be to enforce the government regulations in each county.

The following committee was named: Ellis county, N. C. Hooks of Waxahachie; Navarro county, Elbert Neely of Corsicana;

(Continued on Page Two)

Negro Died In  
Chair For Death  
Of White Girl

HUNTSVILLE, Nov. 20.—(P)—Marshall Williams, negro, went to his death in the electric chair early today for the killing of Miss Elsie Jones, 19, Brookshire farm girl, last August.

The only statement the 24-year-old Williams made before he was put to death was that he was "sorry" for his mother "I am all right."

Miss Jones was found beaten to death in the creek bed the morning after she had ridden from her father's farm home to round up some dairy cows.

Williams was arrested in Louisiana several weeks later and returned to Huntsville, where he was convicted and sentenced to death.

Woman Charged  
Pouring Boiling  
Oil On Family

PHILADELPHIA, Nov. 20.—(P)—The police arrested a woman today on a charge of pouring boiling oil on her husband and two daughters while they slept.

The first mixed it with sugar "to make it stick," detectives asserted.

Police said the woman, Mrs. Sara Faden, 50, gave no reason for her act. She was arrested in the kitchen of her home by a patrolman who heard the screams of Harry Faden, 48, her husband, and the girls, Elizabeth 16, and Yetta, 13. The three victims were taken to a hospital, where Faden was admitted and the girls were treated and sent home.

The couple, who formerly lived in Atlantic City, have six other children.

JUAREZ, TOWN THAT THIRST  
BUILT, SEEKS WAYS OFFSET  
LOSSES PROHIBITION REPEAL

EL PASO, Nov. 20.—(P)—Juarez had at least \$1,000,000 invested in Mexico—the town that thirst built—has begun to seek ways of offsetting the business and population loss that is expected to follow U. S. Prohibition repeal.

The border town across the Rio Grande from El Paso enjoyed a heavy patronage from thirsty El Pasoans and tourists during the years of prohibition. One by one, however, the 100-odd saloons in Juarez have been folding up since the legalization of 3.2 beer in Texas.

No more is the barn-like Gold Palace, which in its hey-day was known as Big Kid's Palace, and which attracted lusty shirt-sleeved drinkers from all points of the compass. Dust covers the bars in the Gem, the Owl, the Club and the Castle. Surviving still are many others, but they are hanging on to glean something from the hoi-v trade.

After January 1 the golden age of Juarez will end. As Joe Mogel, proprietor of O'Brien's Riverside puts it, "We'll be sunk."

A few years back Americans Southwest

BALLOON CARRYING  
SETTLE AND FORDNEY  
TOOK OFF MONDAY

STUDY OF COSMIC RAY OBJECT OF LATEST STRATOSPHERE FLIGHT

AKRON, O., Nov. 20.—(P)—Riding miles above the earth on the wings of a breeze, Lieut. Com. T. G. Settle and his aide, Major Chester L. Fordney, took wireless down to earth that the world's fourth corded ascent into the stratosphere was in the process of completion.

In a voice conversation with Frank Knox, of the Chicago News, the aeronauts who took at 9:27 a. m. at the Akron airport advised those below that they had lost sight of the earth and were making an altitude of 23,000 feet—the "ceiling" of their balloon—about 3:20 p. m.

They were comfortable in their hermetically-sealed gondola, said Fordney—so comfortable, in fact, that they were working with their scientific instruments with bare hands. The temperature was 46 degrees, but many degrees below zero outside their shell-thin sphere.

"Where do you think you are?" asked Col. Knox.

"Well," replied Fordney, "we're over Pittsburgh, the last we knew, and we'll land somewhere southeast of there."

"Near Washington?"

Fordney laughed. "That would be nice. I'd like to see my children in Washington when I get down."

At that time they were at an altitude of about 58,000 feet, and said Fordney, had only 100 pounds of ballast left. He would not have had an answer to the question.

(Continued on Page Seven)

JUDGE CLEARING  
LEGAL MAZE FOR  
SCOTTSBORO TRIAL

TIME IS SET FOR HEARINGS  
ON MOTIONS; DEFENDANT  
DESIGNATED

BY T. M. DAVENPORT.  
(Associated Press Staff Writer.)  
DECATUR, Ala., Nov. 20.—(P)—A maze of legal points were rapidly cleared today as Judge W. C. Callahan arraigned the seven negro defendants in the "Scottsboro case" and set the trial of Heywood Patterson for Monday, November 27.

"Taking of testimony to support a motion to quash the indictment was avoided by attorneys agreed to submit the record of the testimony on the question in the previous trial."

A plea of "not guilty" was entered for the negroes by Samuel S. Leibowitz, who asked severance for each of the defendants.

Attorney General Thomas S. Knight, Jr., designated Patterson to be tried first.

Judge Callahan warned attorneys for both sides that all preliminary motions must be disposed of this week.

Hearings of arguments for a change of venue was set for this afternoon. Hearing on the motion to quash the indictment was set for Thursday.

The defendants were brought under heavy guard from Birmingham, arriving just at sunrise. There were many vacant seats in the courtroom on opening of court, but most of them were taken by 10:30 when a recess was taken.

## WEEK SLAYER FARM WOMAN KILLED WHEN HOME WAS ROBBED

SHERMAN, Nov. 20.—(P)—J. Benton Davis, sheriff, today offered a \$50 reward for the arrest of two Grayson county residents, against whom he prepared murder and attempt to rob charges in connection with the brutal slaying of Miss Antonio Bachman at her home near Pottsboro yesterday.

The charges were prepared for filing in the court of W. S. Buster, justice of the peace.

SHERMAN, Nov. 20.—(P)—Officers of Denison and Sherman sought two men suspects today in connection with the slaying of Miss Antonio Bachman, 49, native of Odessa, Russia, by robbers at her farm home four miles northwest of Pottsboro Saturday.

The police department here said murder charges and robbery with firearm charges had been filed against the men.

Belief of the men that money was secreted in the home occupied by the woman and her sister, Leopoldine, was thought to have led to the robbery.

DENISON, Nov. 20.—(P)—A man suspected of fatally wounding Miss Antonio Bachman, 49, at her home near Pottsboro, during what officers believed to have been a robbery, was hunted in the Red River Valley near Denison today.

A sister of the slain woman, Miss Leopoldine Bachman, told officers she heard a shot while she was in a field Saturday night. She said she rushed into the house and found Antonio lying on a bed wounded. The house, she said, appeared to have been ransacked. Antonio died later in the Sherman hospital.

Funeral services for the slain woman were planned for today. She and her sister had come from Odessa, Russia, with their parents 40 years ago, settling first in Minnesota and coming to Grayson county 25 years ago. Since the death of their parents, the sisters, unmarried, had lived much by themselves.

## TWO MEN HELD IN CONNECTION WITH COUNTERFEIT BILLS

WACO, Nov. 20.—(P)—The finding of \$2,850 in spurious \$5 bills in the hands of two men in the city here today led to the arrest of Angelo Rich, 40, and Paul Reese, 36, held in the McClellan county jail today on charges of possessing and passing counterfeit currency.

The two men, who said they were from Detroit, Mich., were arrested Friday night by Waco police after Corcoran officers had examined three bogus bills.

They were there Detective Robert Van Wyke found the counterfeit in the car.

The men also were alleged to have passed counterfeit \$5 bills here in Waco and in Mount Calm. They were arraigned yesterday before United States Commissioner A. P. McCormick and held for grand jury action on bond of \$10,000 each.

Officers said they denied manufacturing the bogus bills, claiming they bought \$3,000 worth in Chicago for 20 cents on the dollar.

## CUBAN

(Continued From Page One.)

The quiet hills of his "other home" were sunny weather again the president out in his run-down car for a ride about the hills where he fought his way to health several years ago.

He was attacked of infantile paralysis as far as possible. Mr. Roosevelt here again as just one of many citizens. He did not leave the White House automobile when he goes out to drive. He is a small open car. The president also regarded him as one of his own, hesitatingly going to speak with him when he is in the first visit here by him.

The service car trailing him is on the duty road is only open evidence of his presence in office.

This week and throughout the week will confer with government officials. The industrial administration, General Hugh S. Johnson, all probability will be among the first to come.

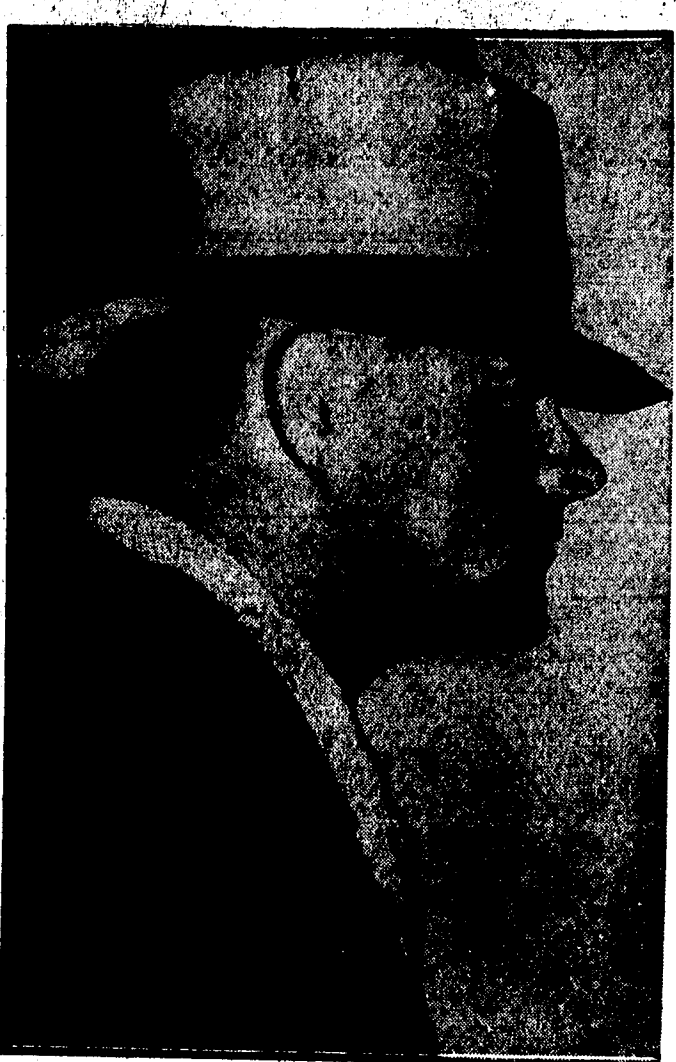

Cuban Troops Ready For Renewed Trouble

HAVANA, Nov. 20.—(P)—Asserting that the "best" of the Cuban revolution are neither in nor are they dead, Colonel Batista held his Cuban troops in readiness today for a new outbreak against the government.

Soldiers spent a busy night in which shots were exchanged, presumably with snipers, in midtown Havana. A communist meeting was broken up at Matanzas and 16 men arrested.

The meeting-out process here was necessitated by rumors and threats of another revolution. Colonel Batista dismissed 780 men.

## KIDNAPER AND KILLER CONFESSES

J. M. (Jack) Holmes, 32, who was implicated in the kidnapping and murder of Brooke Hart, 22, youthful San Jose, Cal., department store executive, by the confession of Thomas H. Thurmond, obtained by the authorities earlier in the day, finally himself broke down and confessed that he had helped to kidnap and murder the Hart youth. Both Holmes and Thurmond were rushed to San Francisco by San Mateo county authorities who feared their prisoners would meet with violence if taken to the county jail at San Jose.

## RUSSIA

(Continued From Page One.)

Conferees were expected between Litvinoff and Acting Secretary Henry Morgenthau, Jr., of the treasury, on trade relations.

Trovanovsky's intimacy with such subjects prompted the impression in some quarters that detailed trade talks may be left for him and the Amtorg Trading corporation after Litvinoff has revealed important policies.

His selection also added prominence to the Manchurian-Siberian difficulties and to some recalled the expression employed both by President Roosevelt and Litvinoff in their recognition letters—that the new friendship would be "for the preservation of the peace of the world."

Return To Normal Relations Predicted By Press of Moscow

MOSCOW, Nov. 20.—(P)—Establishment of normal relations between the United States and Russian, the newspaper Izvestia said today, "will strengthen peace and help decide many urgent problems."

It added, however, that "relations between the U.S.S.R., and the U. S. A., will develop on a basis of mutual interest and esteem, without interference in each other's domestic affairs by either country and on basis of independent policy by both sides."

Although high Soviet officials have refused to comment at length on American recognition, N. N. Krestinsky said that the move "would reduce the possibility of conflict in the Far East."

Krestinsky is acting commissar of foreign affairs in the absence of Washington of Maxim Litvinoff. As it was learned that William C. Bullitt as American ambassador to Moscow had been normally approved by the Soviet government, word went out that the name of the Soviet ambassador to Washington had been submitted to the American state department.

(The name was officially withheld in Moscow, but it was disclosed in Washington that Alexander Trovanovsky, former Soviet ambassador to Japan had been appointed ambassador.)

Until the new ambassador takes charge, Boris Skvirsky, Soviet information bureau head in the American capital, will head the embassy there. Afterward Skvirsky will remain as counselor.

Russian President In Good-Will Message

MOSCOW, Nov. 20.—(P)—Michael Kalinin, president of the Union of Soviet Socialist Republics, gave a message of goodwill and friendship to the American people today.

The president expressed the hope that the establishment of normal relations between the U. S. S. R. and the U. S. A. would "not only greatly benefit mutual interests but also strengthen universal peace."

"At this moment when normal official relations between our two states are being established, I am glad to transmit in the name of the peoples of the Union of

## Courthouse News

District Court.

The following petit jurors have been summoned as petit jurors for the ninth week of the October term of the Thirtieth judicial district court for the week beginning Monday, Nov. 27:

Will Boyd, Blooming Grove 2; J. A. Greer, Barry 1; J. H. McDonald, Corsicana 1; W. S. Moore, Corsicana 1; J. E. Riner, Kereas 1; T. B. Upchurch, Kereas 1; M. G. Mason, Blooming Grove; Ed M. Polk, Jr., Corsicana; N. H. Green, Blooming Grove; L. C. Lockhart, Rice 1; Tom Weaver, Chatfield; S. B. Williams, Blooming Grove; Billy Kanter, Corsicana; J. J. Anderson, Kereas; W. J. Couch, Kereas; J. S. Miller, Corsicana; O. O. Pickering, Corsicana; M. M. Frost, Wortham; H. Hughes, Wortham; T. L. Tankersley, Corsicana; Rufus Tekeli, Corsicana; G. R. Love, Corsicana; J. D. Ingham, Corsicana 3; C. E. Lively, Corsicana 3; J. L. Burks, Navarro; G. W. Harvard, Navarro; A. C. Held, Emhouse; C. E. R. M. Ward, Davis; Watts, Frost; R. M. Ward, Davis; Ellis Slater, Angus; Hoyte Slater, Frost; Luther Jones, Angus; H. V. Ragsdale, Barry; J. A. Love, Blooming Grove 1; O. M. Woodruff, Barry.

The jury for the week and the special venire summoned Monday for the scheduled trial of Charlie Douglas, two murder indictments, were excused Monday morning by Hawkins Scarborough, district judge.

Two cases were scheduled to be sent to Anderson county, Palestine, on an agreed change of venue by state and defense attorneys, but the defendant was not present and the change was not effected.

Douglas is reported picking cotton in West Texas and defense attorneys said they would attempt to have the defendant here next Monday when the orders are to be entered changing the venue.

Douglas was indicted in Henderson county in 1930 in connection with the fatal shooting of his sister-in-law, Texas Hall, and his son-in-law, Davis January. The cases were sent here on a change of venue. Douglas was tried here for the slaying of Miss Hall and received 23 years on the second trial. The case was reversed and remanded by the Court of Criminal Appeals. The first trial was interrupted when Douglas was found in jail with his wrists and throat slashed.

The case for the slaying of January has never been tried. The grand jury is scheduled to resume its investigations Tuesday morning.

District Clerk's Office.

The following cases were filed: Joseph Ivy vs. Ruth Mae Ivy, divorce.

T. J. Ridens vs. Gladys Ridens, divorce.

J. F. Taylor, et al. vs. Felix Delafosse, suit on note.

L. R. Young vs. Vivian Young, divorce.

County Court.

The trial of Clyde Webb vs. Pearce and Manning, damages, was in progress in the county court Monday morning.

Mineral Deeds.

J. W. Edens to Allen D. Edens, 1-5th undivided interest in 708-1 acres of the M. Shire survey, \$50.

Mrs. Agnes Edens to Allen D. Edens, undivided 1-10th interest in 708-1 acres of the M. Shire survey, \$50.

Warranty Deeds.

The Dallas Joint Stock Land Bank of Dallas to H. L. Gilbert, 100 acres of the Siney survey, 200 and other considerations.

P. T. Fullwood to Evelyn Fullwood, 607 acres of the W. T. Malone, Iredell Redding, A. Matthews, and W. E. Bright surveys, 1,000 and other considerations.

John F. Watson to I. A. Hurt, 128-2-3 acres of the Upper Wilkman Gilbert survey, \$4,230 and other considerations.

Marriage Licenses.

Talmadge Powell and Canie Black.

Robert T. Jennings and Eudalia Alexander.

R. S. Mills and Mrs. Mary E. Yates Brown.

Moustella Younger and Johnnie Lee Phillips.

Robert D. Spruiel and La Bess Benton.

Chester Vise and Lillian Mitchell.

Warren W. Gordon and Ella Bell Brown.

Sheriff's Office.

A negro was arrested Sunday in East Corsicana by Deputy Sheriff J. M. Westbrook in connection with the seizure of 25 gallons of liquor and a formal complaint for violation of the prohibition laws was filed Monday before Judge Sam B. Jordan.

Justice Court.

Three were fined Monday by Judge M. Bryant on charges of drunkenness.

One was fined on a charge of drunkenness by Judge Sam B. Jordan.

Representatives of all the governing boards would be asked to attend and hear the interpretations of the new provisions.

The new national code aside from the price provisions went into effect Monday morning, carrying a maximum of a forty-hour week at a minimum of 27 cents per hour.

## TWO MEN CHARGED WITH ROBBERY OF SOMERSET BANK

SAN ANTONIO, Nov. 20.—(P)—Herbert Cochran and L. L. Faupel, known as Major Faupel, today were charged with the \$700 hold-up of the First State Bank of Somerset, 20 miles southwest of San Antonio, Friday.

Complaints of robbery by assault with fire arms were filed by Sheriff Hausser. Neither man was under arrest at the time of the filing of the charges.

Cochran also was charged Aug. 19 with the holdup of the same bank July 20.

Faupel was due in District Judge W. S. Anderson's court today to go to trial on two indictments which charge him with robbery by assault with fire arms. Cochran was supposed to be at Georgetown today to answer an indictment, according to Sheriff Hausser, and a request has been wired there for his arrest.

The complaint charges that Faupel and Cochran Friday held up Garland Owens, cashier of the bank, and took \$700 in money and a pistol.

Sheriff Hausser said the bandits held up the bank, took the pistol when Owens tried to reach for it when the robbers entered the building.

The sheriff also revealed he was seeking a third man in connection with the robbery.

## PRICE FOR GOLD ADVANCED AGAIN; DOLLAR STEADIER

WASHINGTON, Nov. 20.—(P)—With the dollar steadier, the administration advanced its gold program today by raising the price of RFC domestic purchases ten cents to \$33.66.

The five previous daily quotations had been \$33.56, with the dollar meanwhile fluctuating broadly, sometimes dropping as low as \$5.52 to the pound.

Today, however, it opened in London at \$5.71-2. At that quotation, the dollar value of gold in London was \$33.66. The dollar later dropped to \$5.29-3-4, which again carried the foreign gold quotation above that offered for the domestic metal.

Subsequently gold actually bought by the RFC was disclosed by Chairman Jesse H. Jones to amount to 265,000 ounces.

While he continued to decline to tell reporters how much gold has been bought in the foreign market, Jones indicated that purchases in London and Paris have been about equally divided.

The value of the domestic gold purchased was placed by him at \$7,600,000.

Dollar Higher In Paris.

PARIS, Nov. 20.—(P)—The United States dollar closed on the foreign exchange market today at 15-74 francs (6.35 cents to the franc), 9 centimes higher than the Saturday close of 15.65 francs (6.389 centimes).

Dollar Loses Ground.

LONDON, Nov. 20.—(P)—The United States dollar lost 3-4 cents in quiet foreign exchange market today with closing quotation of \$5.31-2 to the British pound compared with Saturday's \$5.27-3-4.

## MAKE THIS MODEL AT HOME

THE CORNICANA DAILY SUN DAILY PATTERN

CAREFULLY STYLED FOR THE MATRON PATTERN 1654

by Anne Adams

If your figure is heavier than it was a few years ago, you should choose your frocks with the greatest care. Lines that slenderize, details that are soft and designed to subtly flatter the figure, are the things to look for. Today's model favors you exclusively. The collar falls gracefully over the bust and notes an unusually interesting back treatment. Sleeves are moderately full at the elbow—or may be three-quarter length—and the skirt adopts a pointed yoke that fits well, and smart pleat for freedom. Lovely fashioned of crepe, satin or wool.

Pattern 1654 is available in sizes 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 4-1/8 yards 39 inch fabric and 1-4 yard 36 inch lace. Illustrated step-by-step sewing instructions included.

Send Fifteen Cents (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly name, address and style number. Be sure to state size.

The smartest, latest Winter styles, the newest fabrics, hints on harmonious coiffures and jewelry, how to knit a smart sweater, gifts for the kiddie, last minute fashion flashes—these are among the fascinating items in the Winter Anne Adams Pattern Book. This book will help you save money. Order your copy today!

Price of catalog fifteen cents. Catalog and pattern together, twenty-five cents.

Address orders to the Daily Sun Pattern Department, 243 West 17th Street, New York City.

## Mildred PTA Aids In Immunization of School Children

Last Tuesday the Mildred PTA sponsored a movement to have the children of the Mildred community immunized against diphtheria.

The first dose of the toxin was administered by Dr. W. W. Carter, assisted by his nurse, Mrs. Bryant.

The State Health doctor asked the Parent-Teacher association to sponsor this and to furnish the toxin for the indigents; and the who could pay were furnished the toxin at nominal cost.

The remarkable thing is that children were vaccinated in minutes.

Dr. Carter and his nurse, assisted by Mrs. Bryant, Eureka, Miss Mary Patterson, Mrs. Joe Thomas and last, but not least, by Mrs. Sam Rogers of the Pure Oil camp.

## Meat Cutting and Canning Be Given Demonstration

A meat cutting and canning demonstration will be held Friday starting at 9 o'clock at the home of Mrs. Gilmore at Phillips Chapel, according to an announcement made Monday.

The work will be supervised by C. C. Morris, county agent, and Miss Ruth McNabb, home demonstration agent. Representatives of the clubs in various sections of the county are expected to attend the demonstration. A picnic lunch will be spread at the noon recess.

DOUBTING THOMASES  
ON MONETARY PLANS  
SCORED AT SAVANNAHPRESIDENT ALSO HAILS RUSSIAN  
RECOGNITION AS  
WORLD AID TO PEACEBY FRANCIS STEPHENSON  
Associated Press Staff Writer.  
SAVANNAH, Ga., Nov. 18.—(AP)—President Roosevelt today hailed Russian recognition as a world aid to the people of Georgia he expressed scorn on the "Doubting Thomases" on his gold-control monetary program.

Before a throng assembled at the spacious Municipal stadium, Mr. Roosevelt put forward his Russian and monetary programs and received the applause of the war-worn citizens.

"I believe sincerely," said the President, "that the most compelling motive that has lain behind the conversations which have been successful yesterday and today between Russia and the United States was the desire of both countries for peace and for the strengthening of the peaceful purpose of the civilized world."

Roosevelt struck out at the critics of his monetary plans with these words:

"It has been remarked of late by certain Tories that those who are today in charge of our national government are guilty of great experimentation."

"If I read my history right, the same suggestion was used when Englishmen, protesting in vain against intolerable conditions at home, founded new colonies in the American wilderness, and when Washington and Adams and Bullock conducted another great experiment in 1776."

Flags were waved and the crowd interrupted with cheers as the President declared that the influence on peace he declared it to be.

**Saving Grace of Nation.**

With a smile Mr. Roosevelt said that celebrating the Bicentennial of the founding of the colony of Georgia:

"The saving grace of America lies in the fact that the overwhelming majority of Americans are possessed of a sense of humor and a sense of proportion."

"With the one they smile at those who would divide up all the money in the nation on a per capita basis every Saturday night and at those who lament that they would rather possess pounds and francs than dollars."

"With our sense of proportion we understand and accept the fact that in the short space of one year we cannot cure the chronic illness that beset us for a dozen years, nor restore the social and economic order with social and simultaneous success in every part of the nation and in every part of the world."

Governor Talmadge and Mayor Gamble rode with the President and his mother through the crowded streets of the city and introduced him at the stadium.

The President went directly from the stadium to his apartment train which left for Warm Springs, where he is expected to arrive late this afternoon.

Text of President  
Roosevelt's Speech

SAVANNAH, Ga., Nov. 18.—(AP)—The text of President Roosevelt's address to the Georgia Bicentennial celebration follows:

"Because my other state gave me the privilege of serving as the honorary chairman of the celebration of this bicentennial year of the founding of Georgia I have come to Savannah in an official capacity."

"But I come here also because of that Georgia means to me personally, without my long association with this state and also through the kinship which my wife and my children bear to the early settlers who participated with Oglethorpe in the founding of this state and the portion of the Atlantic seaboard."

"Apart from the ties of colonial ancestry, I have additional kinship with the founders of the thirteen American colonies. It has been remarked of late by certain modern Tories that those who are today in charge of our national government are guilty of great experimentation. If I read my history right, the same suggestion was used when Englishmen, protesting in vain against intolerable conditions at home, founded new colonies in the American wilderness, and when Washington and Adams and Bullock conducted another great experiment in 1776."

**Changes Momentous.**

"Three quarters of a year have passed since I left Georgia; during that time you have conducted a dignified and history teaching state-wide celebration. During that same time, the lives of the people of this commonwealth."

"Russia and the United States being in character and practice essentially pacific, a common interest in the rights of peaceable nations gives us a common cause in the making of a new world."

"It will interest you to know that in the year 1800 the president of the United States, Thomas Jefferson, wrote as follows to his Russian friend, Monsieur Dashi-koff:

"Russia and the United States being in character and practice essentially pacific, a common interest in the rights of peaceable nations gives us a common cause in the making of a new world."

"In this spirit of Thomas Jefferson, Mr. Litvinoff and I believe that through the resumption of normal relations the prospects of peace over all the world are greatly strengthened."

**Freedom of Worship.**

"Furthermore, I am confident that in a state like Georgia, which had its roots in religious teachings and was the first state to establish a Sunday school was established, there must be satisfaction to know that from now on any American sojourning among the great Russian people will be free to worship God in his own way."

"It is perhaps especially significant that I should speak of the resumption of relations with Russia in the city from which a century ago the first trans-Atlantic steamship set out on its voyage to the old world."

"I am glad to be back on Georgia soil. I am hurrying to Savannah with special interest, for I shall see a splendid new building, given to the cause of helping crippled children by the citizens of Savannah, Georgia. And I am hurrying back to my cottage there for the almost equally important objective of seeing to it that a prize Georgia baby is put into the quick market."

**Overcome Pains this better way**

WOMEN who get into a weak, run-down condition can hardly expect to be free from troublesome "small symptoms."

Where the trouble is due to weakness, Cardui helps women to get strong. This makes it easier for them to take the medicine. Cardui, nagging symptoms disappear as nourishment of the body is improved.

It is of depending on temporary relief. Take Cardui to build up your resistance to womanly ailments.

Navarro County  
Cotton Ginnings  
Far Ahead 1932

There were 68,684 bales of cotton, counting round bales as half bales, ginned from the 1933 crop in Navarro County prior to November 1, as compared with 52,921 at the same time last year, according to figures released Saturday by James E. Taylor, special agent.

The final ginning report last year showed that there had been 61,794 bales ginned in this county.

like the lives of the inhabitants of other states, have undergone a great change.

"I am happy in the thought that it has been a change for the better; that I come back to see smiles replacing gloom, to see hope replacing despair, to see faith restored to its rightful place."

"While we are celebrating the planting of the colony of Georgia, we remember that if the early settlers had been content to remain on the coast, there would have been no Georgia today. It was the spirit of moving forward that led to the exploration of the great domain of Piedmont and mountains that drove the western border of the colony to the very banks of the Mississippi river itself. In all those years of the pioneer, there were the doubting Thomases, there was the persistent opposition of those who feared change, of those who played the part of the mule who had to be goaded to get him out of the stable."

**Objectives Remain Same.**

"In coming for a two weeks' visit among you my neighbors, I shall have opportunity to improve myself by reading of the makers of our history with the thought before me that although problems and terms change, the principles of government remain the same."

have heard so much of so-called economics in recent weeks that it was refreshing the other day to have my friend, the governor of this Hampshire, call my attention to a paragraph written a century ago by that father of economists, John Stuart Mill. He said:

"History shows that great economic and social forces flow like a tide, and that which is half conscious of that which is befalling them. Wise statesmen foresee what time is thus bringing and try to shape institutions and mold men's thoughts and purposes in accordance with the change that is silently coming on."

"The unwise are those who bring nothing constructive to the process, and who greatly imperil the basis every Saturday night and at those who lament that they would rather possess pounds and francs than dollars."

"With our sense of proportion we understand and accept the fact that in the short space of one year we cannot cure the chronic illness that beset us for a dozen years, nor restore the social and economic order with social and simultaneous success in every part of the nation and in every part of the world."

Governor Talmadge and Mayor Gamble rode with the President and his mother through the crowded streets of the city and introduced him at the stadium.

TEXAS PREPARED TO  
PUSH ISSUANCE OF  
STATE RELIEF BONDSALLRED REBUKES WEST-  
BROOK FOR IMPLICATIONS  
OF NEGLIGENCE

AUSTIN, Nov. 17.—(AP)—Texas is prepared to make all possible haste in the issuance and sale of \$2,750,000 in state bonds, proceeds of which will go to the destitute unemployed and be matched equally in federal money.

The Texas bond commission has asked for bids for the securities on December 1. Printers, who were given until December 15 to deliver the bonds, have assured state officials that they believe the work can be executed by December 5.

Impatience of Lawrence Westbrook, director of the Texas relief commission, distributor of funds for the needy, has brought about the haste. Westbrook, state attorney general and chairman of the commission created to attend to details of printing and selling the bonds.

Allred Quotes Law.

Allred said the relief commission had waited until 22 after the bond issue law was effective to make written request for sale of bonds. He pointed out that his commission under the law could not act until requested to do so by the relief commission. Westbrook had said, in a statement given out in Washington, where he is conferring with Harry L. Hopkins, federal relief administrator, that there was too much delay in disposing of the bonds.

Meanwhile Governor Miriam A. Ferguson telegraphed Hopkins that Texas was taking all possible haste in making her state relief money available.

The relief commission has started the purchase of \$500,000 worth of beef to be canned at various centers over the state and distributed to the needy. The Civil Works Administration phase of the movement to "put persons back to work" also is functioning, some 100,000 able bodied men having been placed on jobs at well-taken from the relief rolls through that agency.

**Many Civil Works Projects.**

Many civil works projects have been submitted to the commission for approval and they are being authorized as fast as engineering can check them. Under the Civil Works plan, wages of laborers are to be paid from relief funds, but the political subdivisions in which the work is authorized must furnish the material.

J. F. Reed, assistant state director for relief and civil works, said reports from all sections of Texas revealed that the civil works program had gone into operation without a hitch.

"As far as we know," he said, "Texas was the first, and probably the only State in the Union to do what President Roosevelt wanted done—put every able bodied man on the relief rolls on a basis of proportion."

C. W. Work, who knows the chance of working 30 hours a week on a living wage instead of being on the relief rolls for a mere pittance."

Noted with interest that the counties and political subdivisions were co-operating by supplying materials for projects on which "we are supplying the labor."

primest possible condition for the Thanksgiving day feast.

"On this Thanksgiving, I like to think that many more fathers and mothers and children will partake of turkey than for many years past. What a splendid thing it would be if in every community there were a better understanding of this Thanksgiving, and here in Georgia in celebration of the Bicentennial of the founding of the colony—every community would set as its objective the giving of a Thanksgiving dinner for those who have not yet been blessed by the returning prosperity sufficiently to provide for their own."

Let me read to you in closing a message delivered in celebration by a great son of great Georgia mother, Theodore Roosevelt:

"Materially we must strive to secure a broader economic opportunity for all men so that each shall have a better chance to show the stuff of which he is made. Spiritually and ethically we must strive to bring about clean living and right thinking. The appreciation that the things of the body are important, but we appreciate also that the things of the soul are immeasurably more important. The foundation stone of national life is character and every man must be the high individual character of the individual citizen."

**Savannah Decorated**

SAVANNAH, Ga., Nov. 18.—(AP)—President Franklin D. Roosevelt arrived here today for a celebration. From here he will go to his winter home at Warm Springs, Ga., for a vacation.

He was greeted by Governor Eugene Talmadge of Georgia, Mayor Thomas Gamble of Savannah and other dignitaries. Through lined the streets and cheered the chief executive as his motor car moved along the route to the municipal stadium. He was accompanied by his mother, Mrs. James Roosevelt.

An honor guard of the Georgia Hussars, famous Savannah militia and social organization, was posted along the line of parade to the stadium.

At the stadium, which has a seating capacity of about 20,000, a great throng gathered. There 15,000 Savannah school children massed at one end of the stadium.

It was a pleasantly cool day, and the sun shone brightly. Savannah's streets were decked with flags and bunting.

Use a Daily Sun Want Ad for

J. W. Bailey, Jr.,  
Will Seek Place  
Held by Connally

DALLAS, Nov. 18.—(AP)—Joseph Weldon Bailey, Jr., of Dallas, one of Texas' three congressmen-at-large, announced today he would be a candidate next year for the seat now held by Tom Connally of Marlin, junior United States senator from Texas.

In connection with the announcement, Bailey issued the following statement:

"When congress adjourned in June and permitted my return home, many of my friends insisted that I should become a candidate for the senate of the United States in the primary of 1934."

"There has been some discussion of this in the newspapers and as I have now reached a decision, I feel that it is best to let it be known immediately."

"I disagreed with the junior senator from Texas on many governmental questions. This being true, I have decided to accept the responsibility placed upon me by my friends and announce that I will be a candidate for the United States senate in 1934."

"At the proper time, I will file my name and state my position on all such public questions as affect the people of the state of Texas, and will, of course, conduct an active campaign next summer."

**NEWS ITEMS FROM FAIRFIELD SECTOR; GIRL BURNS DEATH**

FAIRFIELD, Nov. 18.—(Sp.)—There will be singing at Calvary Baptist church next Sunday afternoon, beginning at 2 o'clock. All singers are invited to attend.

The derrick has been completed on the Tolbert Young tract at Young and it is expected drilling will begin on the well in the next few days. The crew has just finished a fishing job on the Shell well near Buffalo, and are again coring. The Humble is in the Austin chalk in the Deitz well in Freestone county and anything may happen at any time in this well. The Sun company has made a location in Anderson county near Oakwood.

There were ginned in Freestone county prior to Nov. 1, 1933, 18,092 bales of cotton, same date last year 18,163 bales.

Work is progressing rapidly on the brick business house of Dr. McFadin adjoining T. R. Bonner's store. This will be a modern building, with a front of beautiful face brick and glass.

Miss Gibson, daughter of Huntsville, was burned to death at her home near Donie Wednesday night when a gas stove exploded. Miss Gibson was a daughter of Wyatt Gibson of near Donie.

A new Methodist parsonage, to replace the building which was destroyed by fire Tuesday morning.

**White Man Held On Federal Charge**

A white man reported to reside in the eastern section of Navarro county has been taken to Dallas by Deputy U. S. Marshall Charles Beekes.

The man is reported to have been arrested by Postal Inspector R. R. Range several days ago and was lodged in the county jail here.

It is reported that the arrest was in connection with the alleged sending of a worthless check through the mails to a mail order house in Dallas.

**Card of Thanks.**

We want to express to our friends our very deep appreciation for the kindness shown us in our recent bereavement, the sudden passing of our beloved husband and father, Dr. W. D. Cross. The expression of such tender solicitude, and sympathy of loyal friends, and neighbors, and the beautiful flowers that speak their own language and brighten even life's darkest hours with sorrow and grief easier to bear. May the Father of all watch over each of you always.

MRS. W. D. CROSS,  
and Children.

**How to Stop a Cold Quick as You Caught It**

1. Take 2 Bayer Aspirin Tablets. 2. Drink full glass of water. Repeat treatment in 2 hours. 3. If throat is sore, crush and dissolve 3 Bayer Aspirin Tablets in warm water and gargle according to directions in box.

**Almost Instant Relief in This Way**

The simple method pictured above is the way doctors throughout the world now treat colds.

It is recognized as the QUICK-EST, safest, surest way to treat a cold. For it will check an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, see that you get

the real BAYER Aspirin Tablets. They dissolve almost instantly. And thus work almost instantly when you take them. And for a genuine BAYER Aspirin Tablets dissolve so completely, they leave no irritating particles. Get a box of 12 tablets or bottle of 24

100 at any drug store.

CORSICANA, TEX., NOV. 21, 1934.

**FARM INCOME RISES**

Figures made public by the bureau of agriculture economics in Washington show \$6,360,000,000 as the estimated income of farmers this year. This represents an increase of 24 per cent over the 1932 income.

Further improvement for 1934 was predicted. This likely would take the form of higher prices for marketable products and improvement in the exchange value of the output. This was seen as a result of the general recovery program.

While the prospects for enlarged foreign outlets is not bright, the domestic demand is expanding.

"The domestic demand for most farm products," said the report, "has improved noticeably since March of this year, and seems likely to improve further in 1934."

The situation from the standpoint of income and outlook is one that has in it much encouragement. A 24 per cent boost over last year is not a small one. It shows that conditions affecting agriculture are undergoing important changes for the better.

The need clearly is for patience and co-operation on the part of the farmers. The farm "strikes" now under way in the West with their accompanying violence can not help matters. They threaten to retard improvement, and, if unchecked for long, may erase much of the advance already registered.

No industry can expect to be boosted to prosperity overnight. Other industries recognize this and are content to make slow progress under conditions generally improving. The farm industry, afflicted with a number of radicals, who although without any extensive following, are able to stir up much trouble.

The best interests of agriculture demand the elimination of these. The quickness of this is brought about, the better will it be for the real farmers whom the country wants to see prosper.

**TREATY DENOUNCED.**

In giving notice of the termination of its extradition treaty with Greece, the United States has sound reasons for its action.

Refusal of the Greek courts to order extradition of Samuel Insull, it charges, was "a clear violation of the American-Hellenic treaty of extradition." Greek authorities "attempted actually to try the case instead of confining themselves to ascertaining whether the evidence submitted by the United States government was sufficient to justify the fugitive's apprehension and commitment for trial."

There could be no corresponding value to the United States in continuing to be a party to a treaty so flagrantly violated by the other contracting party. The guilt of Insull was not involved, except indirectly. It was not for the Greek authorities to determine his guilt. The sole question before them was if the evidence presented was sufficient to raise the question of his guilt. Most persons who followed the proceedings must feel convinced that this was done.

The fugitive power Insull was able to hire lawyers who confused the issue or otherwise swayed the jury in favor of the American, proving that justice may, in some cases, be on a par with that of the occasionally crops out in the United States.

**JUST FOLKS**

(Copyright, 1932, Edgar A. Guest.)

**THE HUMBLE ROADS.**

So many things the eye can meet  
Upon the little casual street,  
The humble houses look as though  
The best and worst of life they  
know.

But seem contented night and day  
That round about their children  
play.  
A fluttering crepe upon the door  
Betokens one who'll smile no more  
And plainly tells the passerby  
The old, old truth that all must  
die.

And ever when such signs I see  
I think of those long lost to me.  
The window boxes bare today  
Were once with red geraniums  
gay.  
A touch of beauty to express  
The tenant's dream of loveliness  
And many a gleaming beacon  
light  
Welcomes the husband home at  
night.

Upon the little streets I see  
All that has happened to me  
A woman with a troubled face  
Welcomes a doctor, with his case,  
While just next door, with rake  
and spade  
A tulip bed is being made.

All joys and cares of good and ill  
These little side street houses fill.  
Mansion and palace can't escape  
That solemn bit of fluttering crepe  
Great house or humble, life ap-  
pears.  
The self-same blend of smiles and  
tears.

**SOUND ADVICE.**

Some sound advice was given investment bankers at their recent convention at Hot Springs, Va.

In the hope of seeing how their business was regarded from outside, the bankers had invited several financial writers to speak. These visitors told the men engaged in selling securities to the public that the latter in recent years had suffered heavy losses because of the lack of frankness on the part of their bankers. Confidence in investment banking, consequently, had been undermined.

"Before you can hope to persuade congress to do the things you know ought to be done," one of the speakers declared, "you must restore public confidence in investment banking. You must let the public know you are anxious to disavow some of the things done by some members of your organization."

The soundness of this advice is immediately recognizable.

**LAWYERS' LOOPHOLES**

Daniel G. Roper, secretary of commerce, believes that lawyers who are ready to resort to "every loophole and technicality" to aid their clients must bear a share of responsibility for the unprecedented crime situation that exists today in the United States.

"Lawyers must be honest," he says in deploring this tendency, "and honesty has no double meaning. The lawyer's duty extends, it has been stated, to an honest presentation of his client's case, in accordance with the rules of procedure and evidence. He is not expected to secure acquittal by any means within his power. The end does not justify the means if the means are dishonest or dishonorable and corrupting to the public welfare."

Sharp dissent no doubt will be registered in legal circles, and even among laymen the secretary will not find solid support for his views.

The legal profession has its share of crooks—men willing to commit acts of unquestioned criminality in behalf of a client where the fee is sufficiently large. To place in this class, though, all lawyers who take advantage of technicalities seems a too extreme view. It is the law's fault that loopholes exist. Taking advantage of these is not itself a violation of law, and that a lawyer is justified in going to any legal lengths in protecting his client's interests is a matter scarcely open to doubt or dispute.

The remedy lies with the legislative agencies which frame the laws. More care in preparing bills would reduce the loopholes. The situation could be further improved if legislatures would be more alert in correcting defects subsequently disclosed in the bills that had become law.

Sally Rand refuses to do her fan dance again—that is, unless she is asked to.

These are happy days for the man who owns a gold mine.

**"WHAT ELSE CAN I DO WITH IT?"**

—By Clive Weed

**CONFUSION CAUSED.**

It was impossible for the fair practice codes signed in Washington to be perfect, however eagerly the government may have sought this goal.

Some of the codes have been in operation long enough for their defects and shortcomings in various directions to be revealed.

An example of this now is the subject of discussion in Boston. It involves the dairymen's code. The directors of the Massachusetts division of the necessities of life, a state organization apparently formed to look after the interests of the consumer, says milk prices prescribed in the code are exorbitant. Certain stores are willing to sell at prices less than the code prescribes and claim they can realize a fair profit. If they do this, though, they will invite the disapproval of Washington and the charge of being unpatriotic.

This and other situations of like kind eventually may be cleared up. They need to be if the code system is to have the degree of public support required for its success.

**KENTUCKY'S PLIGHT**

Kentucky has appealed to the Federal government to take over all relief work in that state because of its inability to raise any more funds for this purpose.

The request made by Governor Laffoon, which has been complied with, means that Kentucky will join Mississippi, Florida, Louisiana, South Carolina and Arkansas.

Few will believe that Kentucky is so poor in resources that it can not take care of its own needy with federal assistance on the basis of \$1 of federal funds for each \$3 supplied by the state.

Politics, according to apparently reliable reports, is responsible for conditions which have forced the state into a situation which must cause chagrin to all Kentuckians. Harper Gatton, just resigned as state relief administrator and a close friend of the governor, had been charged with using his position to build up a political machine. His resignation is said to have been caused by pressure from Washington authorities following an investigation of conditions in Kentucky.

The situation emphasizes the danger of attempting to mix politics with relief work, a temptation too strong for many politicians to resist.

About time for another upset in Cuba.

**THE WEATHER AND CRIME.**

It is neither heredity nor environment that makes criminals.

It's the weather. This is the profound discovery made by science as represented in Dr. C. A. Mills, professor of experimental medicine at the University of Cincinnati.

It was not very long ago that Professor Mills proclaimed a theory that business depressions also were due to the weather. Maybe all our ills, including flat feet, eventually will be traced to that source.

How the weather makes criminals was explained by the professor as being in the creation of an oversupply of human energy. The latter results from sudden and rapid changes in the weather, he said. This surplus of energy must find some outlet. Crime supplies an inviting opening.

If his theory be correct, the crime problem has been reduced to a simple form, the answer to which lies in reforming the weather instead of the criminal.

Now let the federal government turn its attention to this task and promulgate a code for regulation of the weather. Incidentally, it might draft Professor Mills and place him in charge of this piece of NRA work.

H. G. Wells says writing is 90 per cent spontaneity. Who would have believed that the new biographies, in which the authors make up their facts as they go along, represented 90 per cent of all writing?

Norman H. Davis announces that he will play golf in America until Europe straightens out the disarmament conference. Mr. Davis seems assured of many happy days if not years on the links.

New York physicians report a great increase in nervous indigestion in the metropolis. Now that the election is over, maybe a decline will be registered.

The folks who said repeal would never come should have taken a leaf from the experience of the folks who said prohibition would never come.

Every community has at least one family whose members have no skill at anything except winning law suits.

Maybe Litvinoff knows that the more secretive he makes his visit to the United States the more publicity he and his cause will receive.

**MAY VISIT ISLANDS**

President Roosevelt is said to be planning to visit two of the United States colonial possessions next summer, provided his duties in Washington will permit him to absent himself from the capital for the required time.

Hawaii and Porto Rico are the objectives of his plans.

The proposal has much to commend it, with no apparent valid objections standing in its way. Such a visit would give the president a much better knowledge of the problems peculiar to each than he could possibly get second-hand. And each has its problems. The situation in these island possessions, however, are different from that in the Philippines where a strong independence movement has been active for years. In neither Hawaii nor Porto Rico is there formidable independence activity although there has been some attempt in Porto Rico at agitating this question.

The majority of the population in each seems satisfied for their country to remain a part of the United States. There is a demand, though, especially in Hawaii, for a greater degree of self-government. There are economic and other questions also requiring attention.

A personal visit from the president no doubt would be hailed by the Porto Ricans and the Hawaiians as evidence of the central government's interest in their welfare. It might serve further to strengthen the ties between these islands and continental United States as well as provide the background for wise settlement of the problems peculiar to each of the island governments.

An airplane has taken the lives of two "foolhardy" fliers and five persons who played safe by sitting down to breakfast in their own home.

Doctors who advise folks how to live long probably include in the instructions "stay off the highways."

Once the capitalistic system is gone the world will be quieter. There won't be any dinner bells.

If the price of gold keeps going up, hoarders may decide to unload rather than stand trial.

Well, it seems that North Carolina bootleggers will not be thrown out of employment.

Adam and Eve started this nudist colony fad.

**MORGENTHAU TAKES OATH OF OFFICE IN TREASURY FRIDAY**

WASHINGTON, Nov. 17.—(P)—Henry Morgenthau, Jr., today took the oath as undersecretary of the treasury and prepared to take charge of the department as soon as Secretary Woodin goes upon his leave of absence.

The oath was administered by Frank B. Rowland, chief clerk of the treasury, at the White House in the presence of a large group of government officials.

President Roosevelt said he was sure that Morgenthau would find an efficient and loyal body of co-workers at the treasury.

The President's remarks were relayed to newsmen by Stephen Early, his press contact secretary.

Early quoted the President as having told his hearers the credit of the government is as good or better today than at any other time in history.

He praised Secretary Woodin for his services, giving him credit more than anyone else for carrying the country through the banking crisis of last spring and maintaining the confidence of the people in the government.

Among the group which assembled for the ceremony were in the oval room of the White House was Dean Acheson, who recently resigned as undersecretary.

Others on hand included Morgenthau's father, mother, wife, and children. Mrs. Roosevelt, Professor George F. Warren, monetary advisor to the President, and the heads of virtually all divisions of the treasury.

**FUNERAL BE HELD SATURDAY MORNING FOR MRS. MULLINS**

Funeral services for Mrs. M. J. Mullins, aged 42 years, who died at the family residence, 1218 West Twelfth and One-Half avenue, Thursday at 11 o'clock, will be held from the family residence Saturday morning at 10 o'clock with interment at the cemetery. The services will be conducted by Rev. Thomas Lenox, pastor of the First Christian church.

Surviving are six children, Winford, Iola, Elmer, Michael, Ella Theresa and Market for children; father, L. C. Orr, Okemulgee, Okla.; four sisters, Mrs. R. E. Noles, Stigler, Okla.; Mrs. G. V. Taylor, Roanoke, Texas; Mrs. Venie Smith, Portland, Ore.; and two brothers, J. M. Orr, Brawley, Calif., and C. L. Orr, Los Angeles, Cal.

The funeral will be directed by the Sutherland-McCannon Funeral Home.

**COMPETITION SENT PRICE THANKSGIVING TURKEYS DOWNWARD**

FORT WORTH, Nov. 17.—(P)—Greatly increased shipments of Thanksgiving turkeys from the Northwest and Middle West brought prices down sharply as the Thanksgiving market opened. Points closed Thursday in Texas, according to John Collier, manager of the Fort Worth Poultry and Egg Company.

Collier said that while Texas shipments of 500 to 600 cars for the Thanksgiving market were about 200 cars under last year, the Northwest increased its shipments by fully 200 cars and the Middle West showed a similar gain over 1932. These greatly increased shipments prevented an expected rise in prices to Texas producers and the market closed Thursday just about where it started with plants in Fort Worth paying 10 cents per pound for No. 1 birds.

Collier said that from reports to him, it appears that the farmers of the Northwest and Middle West largely cleaned up their supplies of turkeys and the outlook for the Christmas market is very good.

"Texas farmers should now hold their birds tight," Collier said. "If they try to force their turkeys on an unwilling domestic market, they will force prices down and only hurt themselves. There are always plenty of turkeys for consumption in the cities and towns of Texas at Thanksgiving—turkeys that must be sold at any price. The farmers who can properly feed his turkeys until Dec. 1 should get a good price that will pay him for carrying them."

Collier said that points in the Northwest which shipped only one car last year had shipped five to six cars this year, far more than offsetting the scanty Southwestern shipments.

**TRIO ESCAPED LIFE TERM CONVICTS ARE SOUGHT IN ROBBERY**

PALESTINE, Nov. 17.—(P)—Crime hideouts were closed today for three escape convicts and a woman charged with the \$4,114 holdup of the Robinson State bank here October 26.

Warrants were issued here for the arrest of (Whitey) Walker, Roy Johnson and Irvin (Blackie) Thompson, life termers who broke out of the Oklahoma state prison; and Mrs. W. J. Walker.

Walker, a former member of the notorious Kims-Ace-Pendleton bank robbery gang, and Thompson, were given life sentences for robberies in Oklahoma, while Johnson was given life for murder, according to Norman J. York, private detective. The fugitive convicts escaped from the Oklahoma penitentiary August 31.

The Robinson state bank was robbed by four persons.

**Courthouse News**

District Court.  
The special venire of 50 prospective jurors summoned earlier in the week for the Charles Douglas trials scheduled in the district court Monday was excused Friday by Judge Scarborough said those summoned on the special venire need not report Monday.

There is a report among courthouse attaches to the effect that the two murder indictments against Douglas in connection with the fatal shooting of his sister-in-law, Texana Hall, and son-in-law, Darryl January, in Henderson county, in 1930, will be transferred to the district court at Palestine on a defense motion for change of venue. The ordering of the special venire to be dismissed lends credence to the rumors.

District Clerk's Office.  
The following case was filed: Thomas Jennings vs. Fred Jennings, divorce.

Warranty Deed.  
S. M. Ficklin et vir to Joe B. Williams et ux, lots 7 and 8, block 525A, and lot 9, block 525B, F. P. Ficklin addition Corsicans, \$10 and other considerations.

Sheriff's Deed.  
Rufus Pouchard, sheriff of Navarro county, for Earle F. Owens et al, to R. B. Spencer & Company, lot 3, block 114, Kerens, \$1,800.

**CORSICANAN DIED IN AUSTIN AND IS BURIED IN OKLAHOMA**

Harry J. Luce, who held a responsible position with the Magnolia Petroleum Co. here, died suddenly of heart failure Saturday night, November 11, at the Driscoll Hotel in Austin.

Funeral services were held at the Baptist church in his home town, El Reno, Okla., on Wednesday, followed by services by both the Shriners and the American Legion.

Harry, as he was familiarly known, had many friends in Corsicana, who are greatly grieved over his untimely passing. Several of his Corsicana friends attended the funeral services Wednesday in El Reno.

**BAPTIST MISSIONARY ASSOCIATION READY MEET OTHER BODY**

JACKSONVILLE, Nov. 17.—(P)—The Baptist Missionary Association has adopted a resolution looking to negotiations with the General Baptist convention for union of the two bodies.

It was brought out that the fundamental difference in the two bodies was in the matter of relation of the general organization to the local churches.

The convention holds that such bodies are independent organizations with which the churches co-operate, while the association holds that the organizations are subordinate bodies subject to control of the churches, and through which the churches co-operate with each other.

Officers elected at the association's meeting here included the Rev. J. F. Stanley of Arp, corresponding secretary; the Rev. C. R. Meadows of Dallas, editor of "Baptist Progress"; and the Rev. J. W. Harper of Waxahatchie, manager of the Baptist Orphans Home.

Rev. Stanley will be in charge of foreign mission work for the organization. A report on foreign missions was submitted by Rev. A. W. Luper of Dallas, former missionary in Brazil.

**NEGRO SLAIN IN HOME BY MOB WHITE ROBED MEN FRIDAY**

GREENVILLE, S. C., Nov. 17.—(P)—George Green, middle aged negro was taken from his home at Taylors near here early today by a band of men robed in white shot and left dying.

Authorities said they knew of no reason for the slaying of the negro. They were conducting intense investigation.

Green's wife said that a band of 10 or 12 men wearing masks appeared at the house and demanded that the negro come outside.

Green retreated to an inner room, she said, and warned that he would hit the first person to enter with an axe. The men hammered in the door, took the negro and fired three shots into his body.

The woman said one of the men pulled off his mask and revealed he was white. She fled and notified officers.

Two deputies arrived at the scene just before Green died but he did not rally enough to make a statement.

**Pursley Won Over Union High Cagers In Opening Game**

Scoring sprees between Banks and Davis, or Pursley enabled their alma mater to win their first practice game of the season over Union High Thursday 33-18. Kirk and E. Herrin were other scorers for Pursley, while Adams was Union High's leading scorer, with Cooper second. Bailey, Willie, and Baldwin also converted a few points for the Union High cause.

Following is the box score of the game:

Pursley	Pt.	Pt.	Pt.	Pt.
Banks	6	1	2	13
Davis	7	3	1	17
Kirk	1	0	0	2
Eates	0	0	1	0
Fryor	0	0	1	0
D. Gunn	0	0	0	0
D. Burns	0	0	0	0
Pryor	0	0	1	0
K. Burns	0	0	2	0
E. Herrin	1	4	1	1
Totals	14	4	8	33
Union High	0	1	1	1
Adams	4	0	4	8
Willie	2	2	2	6
Cooper	2	2	2	6
Baldwin	0	1	2	1
Young	0	0	0	0
Totals	6	6	9	18

**Teague Lions Downed Itasca Cats Friday**

TEAGUE, Nov. 18.—(Sp.)—The Teague Lions took the Itasca Wampus Cats into camp Friday afternoon by a 20-0 count, adding their season with a record of seven wins, one loss, and one tie via the forfeit route.

The line plunging of Lancaster, the off tackle sprits of Pett and the side sweeps of Horton, behind the perfect blocking of Vason, spelled defeat for the Itasca lads of Johnny Naylor.

The Teague line held the Itasca offense to only two first downs during the game, both of which came during the last half.

The protoges of Bryan Schley scored first in the second quarter after a sustained drive down the field. Petty carrying the ball across, and Lancaster plunging for the extra point. Two more touchdowns were chalked by in the third quarter, both by Lancaster. Smith kicked the extra point on the final score, when Lancaster's plunge had failed on the preceding score.

Tom Long at tackle for the Lions was again the best lineman on the field, clearly demonstrating his right to an all-district berth. Smith and Ogletree at ends, and Bomer and Perry at guards were also unexcelled for the afternoon. Captains Davidson of Teague and Campbell of Itasca had a pretty duel as rival centers, with the Lion leader having a bit the edge.

Holchak and Martin were the

Forbes

All requests for beauty information desired by Edna Kent Forbes column for women must be accompanied by a fully self-addressed stamped envelope (a.s.e.) and two cents in stamps to cover cost of printing and mailing. For the illustrated pamphlet, "BEAUTY" ten cents in stamps with fully a.s.e. must be enclosed. Address Miss Forbes in care of the publisher.

## THE TAILORED GIRL

If you belong to the type popularly known as the tailored girl, you are a very lucky person. Because you have a certain type of costume in which you look well, which you can always buy ready-made and which need never be expensive. You can save money, always look well dressed, and all you require is one good tailored suit, and variety in the way of blouses and scarfs. The advantages are so many that I should like to advise you to become the tailored type of girl if you can possibly do so.

You will probably find it necessary to wear some sort of corset or girdle if you go in for this type of costume. The soft curves of the natural figure are all right for afternoon dresses, summer frocks or any sort of dressy costume, and most particularly for an evening gown. But the tailored suit with the sharp division of line where the skirt and the blouse meet accentuates the waist and the hips, and absolutely demands very trim and very firm contours—in fact, so firm that they can only be achieved by wearing some sort of girdle.

But besides these days are made of such soft materials that they need not restrict or stiffen the figure at all—at least only enough to give the flat abdomen and the firmly rounded hips the look which makes the separate skirt look well.

The tailored girl must hold herself erect. No slouching in a coat and skirt. She must not use much make-up, save this for evening gowns and for very dressy occasions. Her hair must be neat, not too long, and it must not fly out in an untidy fashion from her head. Her hands must be well manicured, but the nails must never be very long, and though they can be tinted the color should never be very vivid. In other words, all the amusing exaggerations of fashion should be saved for very formal or very informal occasions. I'd suggest wearing pumps, which are both dressy and practical, rather than sports shoes.

B. V.—Try some of the simple bleaches, like buttermilk or cucumber juice on the remaining tanned skin over your shoulders and back. If these do not bleach enough, try peroxide weakened down with an equal amount of water. Be careful to keep it from your hair over the back of your neck, as it might easily bleach that also.

Mrs. G. F.—The little face patterns are not very costly any more

## WILL INVESTIGATE FOUNDATIONS COURT HOUSE BY DIGGING

The Navarro county commissioners' court at a special meeting Friday morning decided to dig about the foundations of the courthouse and see the condition of the soil and also the foundations following the rescuing of a special report from Robert O. Jamison, Dallas, consulting engineer, after an inspection made this week. No definite decision or action in the matter of repairs to the building will be made at this time.

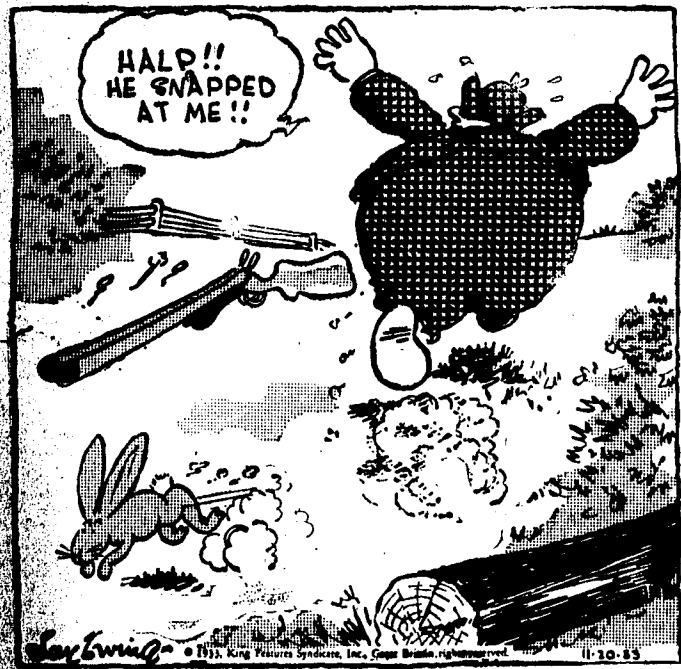

An easement was granted to the city for the laying of water and sewer pipes from mains on the Corsicana-State Home road to residences along the route and also along the Corsicana-Blooming Grove road.

The petition for the easement was presented by W. W. McClelland, city engineer. He stated that the board of control of Texas had recently given the pipelines to the State Home entrance and that the State Home meter would be moved from the city limits to the State Home entrance and that patrons on the Blooming Grove road had put up funds for the securing of water and sewer connections.

He said that the I. O. O. F. Home and others along the route to the State Home would likely secure water and sewer connections soon. In Mr. Jamison's recommendations and report, it was brought out that the east wall of the courthouse would have to be rebuilt due to bulging and settlement. He estimated the cost to be approximately \$12,000 for the suggested repairs to the east wall and the reworking and repairing of the corners.

R. S. McDonald said he figured the concrete foundations were overloaded and said he feared the foundations had crumbled.

# APPLICATIONS FOR TEXAS PUBLIC WORKS PROJECTS HIGH

## APPLICATIONS AMOUNTING TO THIRTY MILLIONS HAVE BEEN APPROVED

FORT WORTH, Nov. 20. (AP)—Applications for public works projects in Texas today passed the \$100,000,000 mark with many more expected during the next month.

FWA headquarters reported 645 applications for 1,200 projects estimated to cost \$100,000,000. Of that number 103 applications amounting to about \$30,000,000 have been approved by the Texas Public Works Advisory Board and forwarded to Washington for final review.

Projects of the \$100,000,000 in requested projects, \$71,655,000 of the amount is for requested loans and \$28,345,000 for requested grants.

Thirteen projects have been finally approved in Washington and are expected to be launched soon. These 13 represent an expenditure of about \$15,000,000. Col. Ashburn, Houston, chairman of the Texas board, and Clifford B. Jones, regional FWA advisor, are expected to be launched with PWA checks regarding the possibility of speeding up the approval of Texas projects.

Applications docketed last week follow:

Dallas, water works improvement, \$118,538 (grant only); Dodd City, water works improvement, \$26,250 (L); \$8,700 (G); Windom, water works, \$25,400 (L); \$9,800 (G); Jourdanstown Independent School District, \$13,900 (L); \$9,000 (G); Texas Highway Department, Austin, building, \$3,750 (Grant only); Texas Highway Department, Austin, highway construction, \$2,500 (Grant only); Red River County Water Supply, \$38,900 (L); \$14,100 (G); Houston Hospital, \$64,000 (L); \$38,000 (G); Hospital Independent School District No. 38, Van Zandt county, building, \$5,500 (L); \$7,200 (G); Brazoria Independent School District, \$13,900 (L); \$9,000 (G); Chico Independent School District, Wise county, building, \$12,500 (L); \$5,400 (G); Big Lake Independent School District, \$18,900 (L); \$13,000 (G); Longview Independent School District, Gregg county, stadium, \$13,738 (L); \$4,800 (G); Taft Independent School District, Santa Patricia county, building, \$12,500 (L); \$5,400 (G); Wiley Denton, toll bridge, \$749,569 (Loan only); Shiner, ice plant, \$15,000 (Grant only).

AKRON, O., Nov. 20. (AP)—Lieut. Com. T. G. W. Settle advised the naval wireless station that he was over East Liverpool, Ohio, about 60 miles southeast of Akron, and was preparing to seal the gondola for the ascent into the stratosphere. At that time he had an altitude of about 12,000 feet, he said.

Lieut. Sam Townsend, in charge of the wireless station, announced that Lieut. Com. Settle and his aide and observer, Major Chester L. Fordney, U. S. Marine, were going up the state of 300 feet a minute at the time they contacted him.

As the great gas bag and its dangle gondola, its two hatches capable of withstanding the tremendous air pressure within the shell against the rare air outside of it, shot upward, a drift of 40 miles an hour eastward was indicated, the pilot of the craft wireless.

Townsend on that basis calculated that at about 1 p. m. the bag was over the outskirts of Pittsburgh.

To hasten the ascent into the stratosphere, Settle was dropping ballast.

AKRON, O., Nov. 20. (AP)—Off on a third attempt to reach the third and outer layer of the earth's atmosphere—the stratosphere—Lieut. Com. T. G. W. Settle, U. S. N., and his aide and observer, Major Chester L. Fordney, U. S. Marine, were going up the state of 300 feet a minute at the time they contacted him.

Expansion of the gas in Settle's balloon, which carries Maj. Chester L. Fordney, U. S. Marine, as well as the wireless station, will give the bag and its seven-foot spherical gondola altitude without wasting any of the valuable ballast. It was explained here by Lieut. Sam Townsend, in charge of the naval wireless station.

The last wireless contact with the astronaut was made at 10:36 a. m. (E. S. T.) one hour and seven minutes after he left the huge field on his adventure, being made primarily to determine the nature of the craft.

Conditions Perfect. At that hour Settle advised Townsend that flying conditions were perfect but that he had descended 4,000 feet to the 4,000 foot level in order to take advantage of slower winds and retard his drift. Settle expected to reach the stratosphere and an altitude of possibly 58,000 feet between noon and 1 o'clock.

Report to the wireless station was made at 10 o'clock, at 10:10 and again at 10:30. On the last contact Settle said he was just southwest of Alliance, O. in a 15-mile wind. He and his one-man crew, he added, were comfortable inside the gondola.

To drop the few hundred feet to escape bad winds, he valued a little of his gas.

The next contact, said Townsend, would be made at 12:45 p. m. by arrangement with Settle. At that hour Fordney would be making his observations and keeping a wary eye on the delicate instruments.

At 11 a. m. newsmen at Salem, O., said the gas bag and its dangle gondola, which carried Lieut. Com. Settle, U. S. N., and his aide and observer, Major Chester L. Fordney, U. S. Marine, were going up the state of 300 feet a minute at the time they contacted him.

For food the men carried chocolate bars, coffee, hot chocolate, bananas, apples and grapes.

One Test Failed. A scientific test which the officers had hoped to make, however, was not carried out, due to the failure of a fresh supply of banana fruit flies to arrive from Chicago.

University of Chicago Professor had asked the balloonists to take the flies into the stratosphere to determine whether the cosmic rays would have any influence on their sex.

Commander Settle planned to handle the navigating during the trip, while Major Fordney took care of the scientific end of the journey. A small airplane was mounted in the rigging just above the gondola.

The officers had flying suits in the gondola to put on when they reached the upper strata, where the temperature drops to more than 50 below zero. They had no heating apparatus, however. They planned to communicate with associates through a short wave radio set.

Sighted East Liverpool. EAST LIVERPOOL, O., Nov. 20. (AP)—Lieut. Com. T. G. W. Settle's stratosphere balloon at 12:45 p. m. passed over this city heading directly toward West Virginia. While no estimate of its height could be made, observers hazarded the guess that the bag with its dangle gondola could not have attained an altitude of much more than two miles. The gondola, plainly visible, was scudding in the wind.

Then the Commander cast off eight 35-pound bags of sand and one forty-pound bag of lead dust.

# STRATOSPHERE

## (Continued From Page One)

"Do you think you will exceed 60,000 feet?"

The aeronauts had been in the air almost six hours. During the conversation Colonel Knox asked: "Do you notice any curvature of the earth at your height?"

"No," replied Fordney. "We do not. When we last saw the earth it had the appearance of a flat tableland, such as you see from a ship's height in an airplane."

"How is the weather?"

"Perfect. The sky is a beautiful blue, and when I say blue, I say it emphatically."

"How is your ballast holding out?"

"Hundred Pounds Ballast. Fordney laughed again. 'The ballast is going to outlast the commander.' He added seriously: 'There is only 100 pounds of ballast left. So I believe Commander Settle will win the battle with the ballast.'

Settle appeared to be too busy to say a word into the microphone. Fordney said he anticipated no trouble in getting down.

"Are you prepared to bale out parachute down?" he was asked.

"Of course," he replied after a moment's hesitation. "We will stand by for it."

"How is your oxygen holding out?"

"Fine. It's slowly bubbling away. We can watch it." They carried loud oxygen.

At that moment Settle took a moment to assure Col. Knox, one of the sponsors of the flight, that "nothing is going according to expectations."

AKRON, O., Nov. 20. (AP)—Lieut. Com. T. G. W. Settle advised the naval wireless station that he was over East Liverpool, Ohio, about 60 miles southeast of Akron, and was preparing to seal the gondola for the ascent into the stratosphere. At that time he had an altitude of about 12,000 feet, he said.

# ELECTRIC CYCLE OF SUN NOW REPORTED CONTROL WEATHER IN ALL PARTS OF THE WORLD

## By HOWARD W. BLAKESLEE (Associated Press Science Editor)

CAMBRIDGE, Mass., Nov. 20. (AP)—Evidence that electricity controls weather all over the world was announced to the National Academy of Sciences here today.

The electric cycle runs in a definite cycle, causing rains, droughts, heat spells to recur with themselves once every 25 years, with comparatively minor variations for individual localities.

This electric cycle comes from the sun. Spinning like a top, the sun's northern and southern hemispheres are electrically charged the opposite of each other, one positive, the other negative. These charges reverse from north to south, taking 23 years for the change.

The weather of 1936, said the speaker, is controlled in favor of the Prussian state.

Legs' notice of this seizure was served in the official gazette Reichsanzeiger which listed "all mobile and immobile goods, particularly bank accounts and other deposits" to be confiscated in favor of the Prussian state.

Professor Einstein, now at Princeton University, fled to Belgium with his wife following the advent of the Nazi regime in Germany.

He was accused by the Nazis of being a communist and his books were seized by storm troops to be burned May 5.

He left Belgium and arrived unexpectedly in London September 9 and some time lived in seclusion in an English private estate following which he came to America.

ROCKDALE, Nov. 20. (AP)—Purchase of the entire holdings of the Barnsdall Oil company in the old Corsicana shallow field was announced Saturday by Coffield and Guthrie, Inc., of Rockdale.

The property had been owned and operated in the name of the Marnet Oil and Gas company for a long time, and consists of about 30 leases comprising approximately 1250 acres with over 100 producing wells.

The property will be produced and salvaged in connection with the entire shallow holdings of the Magnolia Petroleum Company, which were purchased by Coffield and Guthrie, Inc., last June.

The sale of the old Marnet holdings to the Coffield-Guthrie interests gives this firm the greater portion of the shallow production in the Corsicana area, many of the wells having been producers for several decades.

In recent months, this firm has been busily engaged in cleaning up the old wells and installing new ones. The first of this year, salvaging equipment from abandoned wells, and cleaning out the best producers.

WASHINGTON, Nov. 20. (AP)—Announcement that a prerequisite to federal loans for 1934 spring wheat production was the agreement to reduce the needed acreage 15 per cent was issued today by the farm credit administration.

If the applicant planted spring wheat on his land in the 1930, 1931 and 1932 crop years, he may not plant more than 85 per cent of the average for those four crop years, the average acreage for that period must be reduced 15 per cent.

Farmers who had an average of 80 acres or less are not affected; those with more than 80 but less than 95 must agree not to plant more than 85 acres; those with 95 or more must agree to the full 15 per cent reduction.

whereupon the huge craft shot upward 1,000 feet.

Waving farewell to the three or four hundred spectators on the field below, the commander alighted first through the porthole into the light metal gondola when the balloon was about 150 feet in the air.

Balloon experts considered the take-off auspicious because more than two tons of ballast was borne aloft, giving Settle much latitude in controlling the craft.

The wives of the two officers, after kissing them goodbye, entered the automobile of Maj. E. H. Perkins, representative of a firm which built the paper-thin magnesium alloy gondola.

Balked in his first attempt to reach the stratosphere last summer, Settle was sighted there at an altitude of 50,000 feet in Chicago, Commander Settle waited several days for favorable weather.

For food the men carried chocolate bars, coffee, hot chocolate, bananas, apples and grapes.

One Test Failed. A scientific test which the officers had hoped to make, however, was not carried out, due to the failure of a fresh supply of banana fruit flies to arrive from Chicago.

University of Chicago Professor had asked the balloonists to take the flies into the stratosphere to determine whether the cosmic rays would have any influence on their sex.

## LARGE ATTENDANCE ON DISTRICT MEET EPISCOPAL CHURCH

HILLSBORO, HUBBARD, ENNIS AND WAXAHACHIE WELL REPRESENTED HERE

With the Rt. Rev. Harry T. Moore, Bishop of the Episcopal Diocese of Dallas, delivering the sermon at the 11 o'clock hour and presiding at a conference starting at 2 o'clock Sunday afternoon and large numbers of members of St. John's Episcopal church and visiting Episcopal delegations from Ennis, Hillsboro, Hubbard and Waxahachie present, a most interesting and helpful district meeting was held Sunday in St. John's church and parish house, with lunch being served by and for the visitors in the auditorium of the Parish House following the morning church services.

The subject of the conference called by Bishop Moore, was "The Program of the Church." This was one of a series of meetings that are being held over the Diocese of Dallas in order to put before the various parish congregations the matter of the church program and its support. Bishop Moore arrived in Corsicana Saturday evening and was guest of the rector and his wife, the Rev. and Mrs. H. J. Ellis, for the night. He was celebrant at the early morning Holy Communion service at which time the members of the Young People's Fellowship had corporate communion.

Program of the Church. Announcing the subject as "The Program of the Church," Bishop Moore at the morning church hour took for the basis of his subject, or his text, the Baptismal promise. Reading the baptismal service, he stated that every member of the Episcopal church had those words said over them, no matter whether they were baptized as infants or as adults. This, he said, was the Christian covenant, the promises made to God, and he stated that the subject in hand touched all, and no individual can escape.

In the baptismal service there are several promises made, and many benefits to be received. The promises made, the speaker said, to be faithful to Christ and to carry on his work, in all ways. Each member of the church has a definite place and a definite duty, it was stressed, no matter what his station in life may be. One must be a good member of God's family or a bad member. There is no middle ground, although some were labeled as indifferent members. We must, he said, have the thought of the kingship of Christ in our hearts.

Christ Had Faith. When we think on Christ crucified, it gives us an insight into Christ's faith in God's program. We also should have faith in the program of the church—in Christ's program for his church. Christ had such faith in God's program that he gave his life in order that it might be carried forward without hindrance. He believed in the program, he loved it and gave his life for it. In closing the Bishop outlined the foreign program of the church—told what was being done in the various far away lands. He recited the rescue of the Arctic explorer, who was above the circle in Alaska, the Episcopal hospital operated in the territory, and his recovery in the hospital. The explorer praised the work but said he did not see why it was necessary to have the prayers and service. He was told that had it been for the prayers of others, answers to those prayers would have been no hospital and he would have died in the Arctic wastes. The foreign program of the church, he said, brought light to the blind, ears to the deaf, and life to the dead. Especially Good. The choir of St. John's an outstanding organization in the church for many years was better, and gave the service in a most beautiful way. The program was especially well rendered and both visitors and members of St. John's delighted with the music for the service. Following the services in the Parish Hall, where tables had been prepared and lunch was served with members of St. John's

As a result of its magnificent performance during the depression, the Red Cross now occupies an even greater place in the hearts and minds of the American people.

## START EXCAVATING ABOUT FOUNDATION OF COURT HOUSE

Convicts from the county farm Monday morning started excavating near the northeast corner of the Navarro county courthouse under orders passed Friday by the commissioners' court to inspect the foundations in an effort to determine the cause of buckling, settling and cracking of the foundations and walls of the building.

During the past several months the cracking and settling of the corners has occasioned considerable concern among the county officials.

A number of theories have been advanced as to the cause of the cracking, etc., and the excavations are being made in an effort to find out the conditions of the foundations.

## EL CAMPO WELL WAS BURNING UNCHECKED DURING MONDAY

EL CAMPO, Nov. 20.—(P)—A destructive fire raged at the Pure Oil Company's Houston No. 1 well today as workmen risked their lives clearing away wreckage preliminary to making an attempt to extinguish the blaze.

Flames shot more than 200 feet in the air with a deafening roar. At night the flaming torch's glare could be seen for 60 miles.

Fire fighters working behind iron shields kept steady streams of water playing on the wreckage around the well in order to keep it cool enough to handle. Lines were made fast to pieces of wreckage and they were pulled out of the way with tractors.

Some sections of wreckage were so large it was necessary to cut them up with an acetylene torch. While the workmen were toiling at this preliminary task, they were kept under a spray of water to prevent their clothes burning and their suffering heat prostration.

The well caught fire last Friday after blowing in. It had been cemented at 6,441 feet and the plug drilled out.

Auxiliary in charge and seeing that everything was done that would give pleasure to their guests. The visitors had brought their own lunches while the Auxiliary furnished the dessert and coffee and saw to the serving of the luncheon.

Conference Held. Following the luncheon and short time of social converse and the arrival of a large number of members of St. John's congregation, Bishop Moore opened the conference for which the district meeting had been called. He outlined the various activities of the diocese and general church and urged a better support of the mission program of the general church. He stressed the value of the duplex envelope system in providing support for the church and for missions and urged its adoption by every parish.

The Bishop also urged that all be given an opportunity to support the work of the church. He brought out that figures of the Episcopal church proved that one-tenth of the membership provided nine-tenths of the support for the church and its program. He then turned the conference into a general forum and several helpful matters were brought out by questions asked and suggestions made. The conference was then adjourned with prayer and the visitors later departed for their homes, expressing pleasure at the excellent meeting and what they believed would be its beneficial results.

## NEW PASTOR FIRST METHODIST CHURCH IS HEARD BY MANY

A meeting of the board of stewards for tonight at 7:30, an all-church meeting in the educational building Wednesday night at 7:30, choir rehearsal Thursday night and Boy Scouts Saturday night are among the activities of the week at the First Methodist church.

At the board meeting all old business of the past year will be cleaned up and the new board will organize for the year. At the church meeting Wednesday night, Rev. T. Edgar Neal will deliver his message to the membership of the church. He is anxious for a full attendance of the membership.

At Sunday school there was 415 present; forty-nine men heard W. H. Norwood teach the Brotherhood class and heard a short talk from the new pastor, The Salvation Army furnished the speaker for the adult department; Chas. Banister was the speaker in the Young People's department.

Two excellent congregations heard Rev. T. Edgar Neal, the new pastor, preach at both hours in the first services of the new church year. At the morning hour Mrs. Homer Pace rendered a solo and the choir a special anthem, and at night with Mrs. Harry Williams in the solo part the choir gave another special anthem.

Rev. Mr. Neal in his morning sermon stated that clean living and kindness were two requisites for a real christian life and at night he stated that the church had been in bad repute and that the way to clean up this matter was for individual church members to so live that the church would regain its power in the world.

Dr. Caspar S. Wright, presiding elder, presided at the morning hour and introduced Rev. Mr. Neal. A word of thanks was given to all who helped in the recent successful conference.

Knock-Out Drops Given in Whiskey

A red-headed country boy who resides near Henderson, Texas, fell into "bad company" during a week end while visiting relatives here.

According to the story related in Judge M. Bryant's court Monday morning, the boy took a drink of whiskey with a stranger. He was practically paralyzed and could not walk when he was found by Constable W. B. Grantham and Deputy Jake Nutt lying in a street in East Corsicana.

The boy's newly found "friend" ran when the officers appeared and a shot only accelerated his speed.

The officers said that it was reported frequently that a "table" is placed in a pint of whiskey which will "knock out" the drinker and the "victim" is "fleece" of money, clothing, etc.

The only thing the East Texan lost was his hat.

After hearing the story, Judge Bryant dismissed the case against the lad.

## Little Child Died At Emhouse Sunday

Freddie Gene Watson, month-old son of Mr. and Mrs. Audrey Watson of the Emhouse community, died Sunday, and the funeral was held Monday afternoon at 2:30 o'clock with burial in the Patton cemetery near Emhouse.

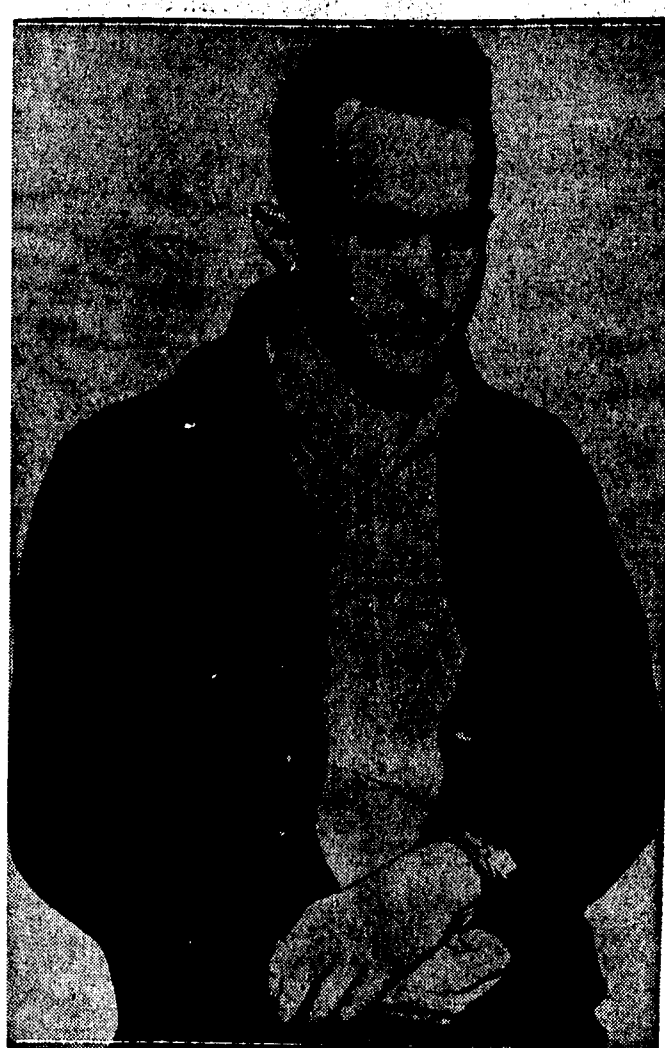

The funeral was directed by the Corley Funeral Home.

## BROOKE HART SLAYER CONFESSES

Thomas H. Thurmond, 25, who confessed that he and J. M. ("Jack") Holmes, 32, had kidnaped Brooke L. Hart, 22, wealthy young San Jose, Cal., department store executive, and beat him to death and then tossed his lifeless body over the San Mateo bridge into the waters of San Francisco Bay. Before murdering the youth, the confession of Thurmond stated, they bound their victim with baling wire. The slayers, according to Thurmond's sworn confession, then had the temerity to begin telephonic communication with Alex J. Hart, distraught father of the boy and San Jose millionaire in an effort to obtain the \$40,000 "ransom" money. Thurmond was captured while telephoning the Hart mansion.

## Negress Decides Not Angry With Boy Friend For Slap

A negress came into the office of Judge Sam B. Jordan Monday morning, inquiring about her "boy friend" whom she turned in to the "law" last week for slapping her.

The negro had not been arrested. The negress asked the case be dismissed, saying after a week's time she was "not mad" at him and didn't want him arrested.

She said she would appear as a witness for the negro if he was tried. Another case is swept from the docket.

## FUNERAL SERVICES FOR HERVEY LAND SUNDAY AFTERNOON

Funeral services for Hervey Land, 19, of Eureka, student in Mildred high school and member of the Mildred high school football team, who died in the P. and S. Hospital Saturday morning at 4 o'clock following an illness of two weeks, were held from the Providence church Sunday afternoon at 2:30 o'clock with burial in the Providence cemetery. The rites were conducted by Rev. H. B. Caraway, Baptist minister.

A military escort from Battery D, 132nd Field Artillery, Texas National Guard, was furnished. Active pallbearers were members of this military unit of which the deceased was a member. Honorary pallbearers were members of the Mildred football squad.

Surviving are his parents, Mr. and Mrs. E. Land, Eureka; four brothers, Brack Land, Kerens; Eddie, Slater and Floyd Land, all of Eureka; and a sister, Mrs. E. E. Eash, Eureka.

The funeral was directed by the Sutherland-McCammion Funeral Home of Corsicana and L. B. Bonner of Eureka.

# A Good Citizen

A good citizen is one who supports his Government, as well as the forces for the upbuilding of his Home Town. We want the co-operation of every citizen of this community in increasing the efficiency of the power and light facilities in every direction, for only by the co-ordination of our efforts and by the support of our patrons can the Texas Power & Light Company succeed.

The public requires service to the end that the community may grow, develop and prosper. Without the service furnished by a proper, adequate, up-to-date system of electric power and light, no community can develop as it should. You are interested in the prosperity and consequent growth of your electric light and power system in order that your community growth and development may not be retarded.

As a Public Servant, with a whole community to serve, the Texas Power & Light Company recognizes that it has a public trust to discharge. It realizes that while the Company and the public have mutual obligations, the rights of the public must come first.

This Company is proud of the property as it stands today. It represents an achievement of thrift, good management and progressiveness. It thinks you should be proud of your electric power and light system. It believes that you are, and that every citizen who is open-minded and fair will be glad to help us rout ill with candor, confront prejudice with facts, and in the friendliest spirit help us face problems which only cordial co-operation can solve.

*J. M. Carpenter*

President and General Manager,  
TEXAS POWER & LIGHT COMPANY.
